

Ogaanshaha Wanaagsan ee Cudurrada Indhaha

Dhakhaatiirteenna ayaa u heellan bixinta daryeelka ugu sarreeya ee bukaanka. Waxaan isticmaalnaa qalab casri ah oo baadhitaan ah si aan u hubinno baaritaan indho oo dhamaystiran, raaxo leh, oo waxtar leh.

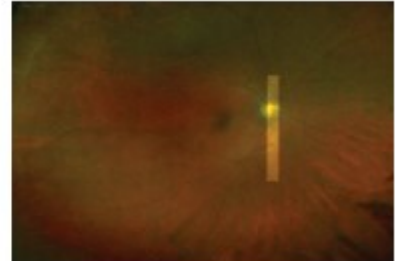

**DHAKHTARKAAGA WUXUU KUU SOO JEEDINAYAA IN
MAANTA LA QAADO SAWIRKA INDHAHA EE BALLAARAN**

Sawirka Indhaha ee Ballaadhan

Ophthalmoscope-ka Aan

Mashiinka Fidsan + Layn 90D

Si ka duwan aragtida la isticmaalayo qalabka baaritaanka dhaqameed, sawirrada indhaha ee ballaadhan waxay u oggolaanayaan dhakhtarka inuu hal mar ku eego ilaa 80% indhaha. Tani waxay ka caawisaa dhakhaatiirta in ay baaritaan u

In kasta oo sawirka indhaha aan lagu beddelin karin baaritaanka ballaadhan ee faahfaahsan, sawirku wuxuu tilmaami karaa haddii aad u baahan tahay in indhaha lagu ballaadhiyo. Haddii sawirkaagu caadi yahay oo dhakhtarku aanu arkin wax caalamado kale ah oo ballaadhin u baahan, uma baahnid dhibicda ballaadhinta booqashadan. Haddii aan la qaad in sawir ama dhakhtarku go'aansado inaad u baahan tahay ballaadhinta sababtoo ah arrimo kale, fadlan u oggolaan qiyaastii 20-30 daqiiqo dhibicda indhaha in ay si buuxda u ballaadhiso ardaydaada. Dhibicda ballaadhinta indhaha waxay sababi kartaa aragga oo aan si fiican u fiicnayn ilaa 8 saacadood marka la isticmaalo ka dib.

Waxaa la ii wargeliyay muhiimadda iyo faa'iidooyinka qaadista sawirka indhaha ballaaran si loo baadho cudurrada indhaha. Waxaan fahamsanahay in baadhitaannadan muhiimka ah ay ku kacayaan \$_____ oo aan badanaa caymiska daboolin.

☐ Waxaan **OGOLAHAY** talada dhakhtarka ee qaadista sawirka indhaha ballaadhan.

☐ Waan **DIIDAY** talada dhakhtarka ee qaadista sawirka indhaha ballaadhan.
